# RECOGNIZE THE WILL OF ALLAH FROM THE WORD OF ALLAH

Today in my brief presentation I will try to point out **the significance of scientific research from the Holy Quran, Hadith, the Promised Messiah<sup>as</sup> and from our beloved Huzoor<sup>aba</sup>.**

- There are still some people in this world who think that science is against religion.
- When we read the Holy Quran however, we find out that it is the opposite.
- Allah loves those who dig deep into knowledge for the benefit of mankind.
- **Religion and science are intertwined with each other. The Holy Quran being the “Word” of God and Science being the “Work” of God.**

# AALE-IMRAN VERSES 191-192

- Yatafakkaroon means to ponder upon. Taffakkar. Ayat means signs of Allah.
- **Albaab** is plural of **Lub** which means understanding and intelligence. people who possess wisdom. “In many verses of the Holy Quran, Allah the Almighty has mentioned the creation of the Heavens and the Earth, and He has instructed us to reflect upon the true purpose of our creation.”
- “He has encouraged us to use our brains and to ponder upon His creation and to **search for new roads of human progress and innovation through research and reflection.**”

R. 20.

**191.** <sup>c</sup>In the creation of the heavens and the earth and in the alternation of the night and the day there are indeed Signs for men of understanding;<sup>546</sup>

**192.** <sup>d</sup>Those who remember Allāh standing, sitting, and lying on their sides, and ponder over the creation of the heavens and the earth; and say, “Our Lord, Thou hast not created this *universe*

إِنَّ فِي خَلْقِ السَّمُوتِ وَالْأَرْضِ  
وَاجْتِلَافِ اللَّيْلِ وَالنَّهَارِ لَآيَاتٍ لِّأُولِي  
الْأَلْبَابِ ﴿١٩١﴾

الَّذِينَ يَذْكُرُونَ اللَّهَ قِيَمًا وَقُعُودًا وَعَلَى  
جُنُوبِهِمْ وَيَتَفَكَّرُونَ فِي خَلْقِ السَّمُوتِ  
وَالْأَرْضِ رَبَّنَا مَا خَلَقْتَ هَذَا بَاطِلًا  
سُبْحَانَكَ فَقِنَا عَذَابَ النَّارِ ﴿١٩٢﴾

In this verse, there is a **prophecy that the pen will play a very important part in committing the Quran to writing, preserving and protecting it from getting lost or interfered with**

It refers to the great contribution which “pen” was to make towards the **propagation and dissemination of the spiritual sciences**

It is very significant that frequent mention should have been made of “pen” in a book which was revealed among a people who had rarely used it. And which was revealed to a person who himself did not know how to read and write.

1. <sup>a</sup>In the name of Allāh, the Gracious, the Merciful.

2. Proclaim<sup>3386</sup> thou in the name of thy Lord Who created.

3. Created man<sup>3387</sup> from a <sup>b</sup>clot of blood.

4. Proclaim! And thy Lord is the Most Bounteous;<sup>3388</sup>

5. Who taught by the pen,<sup>3389</sup>

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ ①

اقْرَأْ بِاسْمِ رَبِّكَ الَّذِي خَلَقَ ②

خَلَقَ الْإِنْسَانَ مِنْ عَلَقٍ ③

اقْرَأْ وَرَبُّكَ الْأَكْرَمُ ④

الَّذِي عَلَّمَ بِالْقَلَمِ ⑤

# HADITH

***This Hadith is about verses 3:191-194 revealed to the Prophet (SAWS).***

It is narrated that once 'Ayesha<sup>ra</sup> was asked about her best memory of the Prophet (SAWS).

- While at my place, the Prophet (SAWS) began praying. He shed tears so much that the front of his clothes became wet. After that he bowed down for prostration. When he fell into prostrate, he wept so much so that the ground became wet.
- Next morning, when Hazrat Bilal asked him, the Prophet (SAWS) said:
- ***"Last night some verses were revealed to me (verses 190 to 194, Surah 'Ale -'Imran)."***
- He said, ***"Woe to the one who recites these verses and does not contemplate."***

*Sahih Ibn Hibban 620*

# **HIS HOLINESS, HAZRAT MIRZA MASROOR AHMAD ABA**

- In address to AMRA UK , Hazoor<sup>aba</sup> said, after quoting verses 191-192 of Sura Aale Imran,
- **“Ahmadi Muslim scientists and researchers must revive the honor and dignity of Islam in the global academic arena.”**
- **Huzoor<sup>aba</sup> said, “Research something beneficial for humanity.” Your research should be “Constructive” and not “destructive.”**
- **“It should coincide with the Physical laws. Connect it to the Holy Quran.”**
- **“Research on the avenues that are for the benefit of humanity, and which are according to the limits prescribed by Allah the Almighty.”**
- **“He or she will have an unquenchable thirst to identify the hidden characteristics or potential of the physical world and, so they realize its brilliance and perfection.”**

global <https://www.alislam.org/press-release/keynote-address-to-first-international-ahmadiyya-muslim-research-association-conference/>  
academic arena.” – Hazrat Mirza Masroor Ahmad

# HAZOOOR ABA FURTHER SAID:

- We are the best of creation.
- A true believer will continually strive and struggle to observe and understand the perfect harmony of nature and the world around us.
- And warned us:
- **Attempts to pursue immoral and dangerous pursuits such as genetic engineering and the cloning of living creatures. The results of such undertakings, where humans far exceed their limits and seek to 'play God', will surely be catastrophic and be the means of driving mankind towards its destruction.**

# THE PROMISED MESSIAH <sup>as</sup>

- Huzoor <sup>aba</sup> quoted from the writings of the Promised Messiah <sup>as</sup> and said:
- “The Promised Messiah (peace be upon him) has stated that when a believer studies and ponders over the celestial bodies and the entire Universe it causes their minds to open and for them to become enlightened. The result is that they are led towards a firm belief in the existence of God Almighty, as they see the signs and evidence for His existence all around them.”

# START BY LEARNING THE HOLY QURAN AND WRITING ARTICLES

<b>Galaxy and Universe</b>	<b>Foods in the Holy Quran</b>
<b>Seven heavens and seven earths</b>	<b>Animals in the Holy Quran</b>
<b>Cattle and their uses</b>	<b>Balanced diet through the Holy Quran</b>
<b>Honeybee/ Honey</b>	<b>Principles of healthy lifestyle from the Holy Quran</b>
<b>Neuroscience like Alzheimer's ,dementia muscular degeneration, ALS, etc.</b>	<b>Genetic Engineering</b>
<b>Process of Embryogenesis</b>	<b>Stem cells Therapy for degenerative diseases</b>
<b>Process of aging</b>	<b>Plasma therapy for deadly viruses</b>
<b>Nutrition and its effects on your body and soul.</b>	<b>preventing Chronic diseases</b>
	<b>Environments, safety and preservation</b>

## SEVEN STEPS OF SCIENTIFIC RESEARCH

STEP #1: ASK THE QUESTION

STEP #2: CONDUCT RESEARCH

STEP #3: DEVELOP YOUR HYPOTHESIS

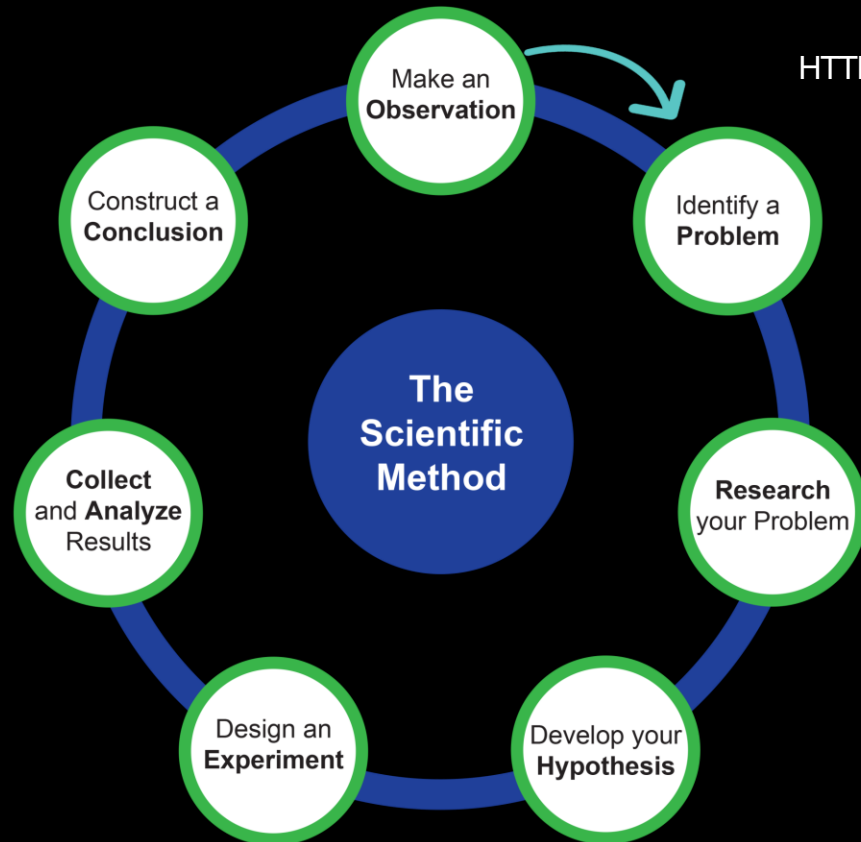

STEP #4: TEST YOUR HYPOTHESIS WITH AN EXPERIMENT

STEP #5: MAKE AN OBSERVATION

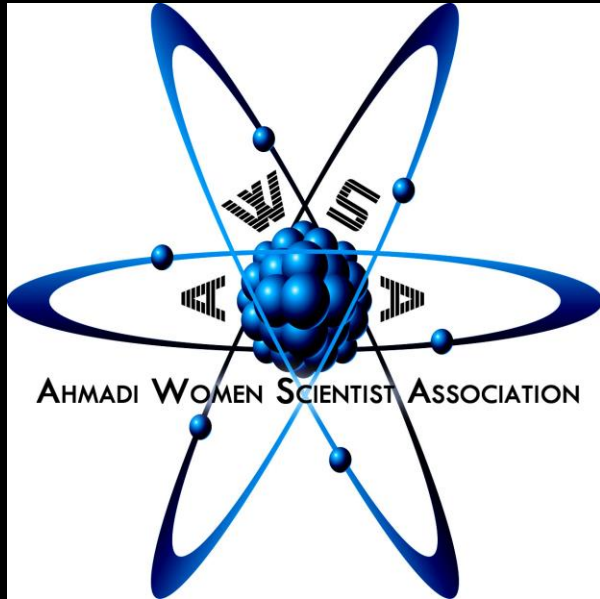

STEP #6: EXAMINE YOUR RESULTS AND DRAW A CONCLUSION

STEP #7: SHARE YOUR FINDINGS

[HTTPS://WWW.THELADDERS.COM/CAREER-ADVICE/THE-7-SCIENTIFIC-METHOD-STEPS](https://www.theladders.com/career-advice/the-7-scientific-method-steps)

# WHAT CAN YOU DO?

- I have humbly brought your attention towards the significance of **seeking knowledge** and keep seeking it till your last breath. I have used the verses of the Holy Quran and Ahadith to make my point.
- **Choose a topic from the Holy Quran.**
- **Write articles** for Review of Religion, Muslim Sunrise, Ayesha Magazine, Gazette, etc.
- **Share with your children to Inspire them** to become scientists/researchers/doctors while they are still in school.
- I hope that this presentation is helpful to you in your future endeavors, Ameen

Any Questions?
